10/11 Photo Safari
Go on a zoo trek, camera in hand, and take part in a photo scavenger hunt. Can you find a tiger taking a cat nap? Or some orangutan acrobatics?

10/17 Going Batty
The saying goes “blind as a bat,” but are bats really blind? Do they all want to suck your blood? We’ll bust some batty myths and learn all about these nocturnal flyers.

10/18 Skull Science
What can you tell about an animal just by looking at their bones? Join us as we become bone scientists to learn all about skeletons.

11/27 Turkey Trouble
What makes a bird a bird? Learn all about our feathered friends and gobblers.

12/27 Animals Around the Clock
Early birds and night owls. Hibernators and estivators. Learn about some strange sleep cycles and animal insomniacs.

12/30 Ice Age
Sabertooth Tigers, Mammoths, & Sloths, OH MY! Extinction can be the result of a dramatic natural event or human action. Learn about these awesome creatures and what we can do to prevent possible future extinctions.

12/31 Polar Opposites
Can polar bears and penguins visit each other? We’ll talk about the North and South Poles and those animals that call them home.

1/2 Fancy Feathers
Why do birds have feathers? We’ll explore these birdie adornments to see how even the dullest bird is still fancy feathered.

1/6 Panda-monium
What is a panda? Are giant pandas and red pandas related? We’ll take a look at our bamboo eating pals.

1/20 Desert Daze
Warm up with some desert heat. But are all deserts hot, and how do animals survive such extremes? Find the answers to those questions and more.

2/14 Fabulous Families
Not every animal family is the same. We’ll talk about dads and moms, big families and those animals that just prefer to go it alone.

2/17 Super Savers
Did you know even animals can be recyclers? Discover how these animals take everyday items and repurpose them.

3/19 Ocean Predators
Lion(fish)s, Tiger(shark)s, and (polar)bears! Oh my! Who in the deep, deep, blue sea do we need to watch out for?

3/20 Slow It Down
Who is the slowest of slow? Join us as we talk about the slow pokes of the animal kingdom.

3/23 “Ton”gues of Fun
Did you know a giraffe’s tongue is purple? And why is a snake’s tongue forked? We’ll explore some truly crazy tongues.

4/10 Baby Boom
Spring is here and so are the baby animals. From one baby to hundreds, from helpless to born running; every animal has a different strategy for survival, even the young.

Camp Activities

Our day camp curriculums are designed to be age-appropriate and are properly supervised at all times. Camp activities may include, but are not limited to:

- Educational games
- Science experiments
- Zoo rides like train, carousel, and tram
- Crafts
- Educational movies
- Zoo tours
- Playground time
- Zoo shows

There are some activities that may require more intense instruction and/or supervision. These activities may involve other departments within the zoo or are designated by their age appropriateness, developmental needs and safety concerns. Campers will be under the supervision of camp staff at all times. An activity of this nature may include:

Animal Encounter

Animal Ambassadors, accompanied by trained presenters, will visit the class for an up-close personal experience. At the discretion of the presenter, children may be allowed to touch these animals.
